

## ADC\_02 Learning to Learn – S5

### Assessment #4: Learning Portfolio [40%]

A learning portfolio is a purposeful structured collection of student work that demonstrates a student's effort, progress, achievements, and competencies in one or more areas over time.

A learning portfolio displays your abilities, experience, and qualifications. The goal is to provide evidence of what one has learned. These artifacts could include reflective writing, projects, or written reports.

It is designed to help one establish their learning, measure progress, and provide evidence of their evolving self.

Develop an E-Portfolio that demonstrates the tools you are actively using at 42 Abu Dhabi and how these tools are helping you to succeed. These include giving, receiving, and enacting feedback, time management, learning from failure, and action planning.

The E-Portfolio should include the following:

1. About Me
2. Qualifications
3. Skills
4. Work experience
5. Projects
6. Achievements
7. Reflections
8. Link to Resume / CV
9. Links to GitHub, LinkedIn, etc.

#### Grading Rubric

The following grading rubric is used for the E-Portfolio:

Assessment Area	Score (%)
Selection of Artifacts	8.0
User of Multimedia	8.0
Reflections	8.0
Creativity and Purpose	8.0
Ease of Navigating	8.0
Total	40
